

Dear Kathryn Ruth,

We are 8th grade students at Warsaw Middle School and we are hosting a mock election. We were wondering if we could borrow the voting booths on Monday, the 29th for the entire day. We feel that middle school students should be able to vote, too. The voting booths would help make the voting process less foreign to students when they grow up and are ready to vote. We're hoping that once this mock election is over students will feel more comfortable with the voting process and not so oblivious.

Please let us know if that would be okay and when we could get the booths. Thank you for your time!
