

Genetic Disorders

Individual Responsibilities: Choose a genetic disorder that has effected your family. Your research should include an explanation of the disorder, symptoms, treatments, etc. The explanation should include why the genetic disorder you are describing is a genetic disorder. You also need to reflect upon how this disorder has affected your family or could potentially affect you. A correct bibliography is also needed.

Check all that apply

T	S	Exceptional	T	S	Proficient	T	S	Not Yet Proficient	T	S	Experiencing Difficulty
		Very organized and informative			Organized and informative			Somewhat organized and informative			Not organized or informative
		Disorder is accurately and thoroughly explained			Disorder has been accurately explained.			Student has attempted to explain the genetic disorder.			Explanation of genetic disorder is lacking many important details.
		Describes all important aspects (symptoms, treatments, causes, etc.) of the genetic disorder.			Describes most important aspects (symptoms, treatments, causes, etc.) of the genetic disorder.			Describes some important aspects (symptoms, treatments, causes, etc.) of the genetic disorder.			Lacking many important aspects (symptoms, treatments, causes, etc.) of the genetic disorder.
		The information presented is based on researched information but includes some information from a personal interview.
