

How often did you use your iPad during social studies and language arts this year?

Almost everyday. We used it for research, and creating different projects.

Describe some of the apps we have used this year and how they were helpful for you.

E-backpack has been very helpful to me it shows me what's due and when's it due and if it's late. It helps if your behind.

Google docs- it's helped me to work with other people on group projects and be able to see what they are doing. Also I can share things with the teacher and get comments back.

Maine Indian gallery- we used it for our Wabanaki projects and it helped me understand different cultural aspects.

Did the iPad help to increase your organization? Explain how.

It holds all the information and doesn't get lost in your backpack or thrown away.

I can check if my work is late and send it in through e-backpack so if I'm not there it won't be late.

Did the iPad help with your individual needs as a student? Explain how.

Yes it did. I needed to be able to keep track of all my work and make sure it's in on time.

Did the iPad help to engage you as a student? Explain how.

I think it did. It doesn't hurt my hand to type like it does when I write with a pencil. I think I work better on an iPad because I love technology and I get to use it everyday in school.
